How to Download NYSEG Energy Usage Data

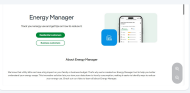
Learn how to access and export your historical energy consumption data from the NYSEG Energy Manager portal. This guide walks you through the steps to filter your usage by date and download the information as a CSV file for your records.

Difficulty: Easy | Steps: 8 | Time: 1 minute | Updated: 10 days ago

Nyseg | Google

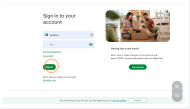
1 Start by doing a web search for "NYSEG energy manager"

2 Energy Manager should be the First result



4 If you already have an online account, enter your username and password, then click Sign In

5 If you don't have an account or are not sure if you do, Click "Register Now" or use the account recovery links.

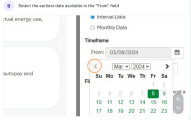


6 Select your account - if you only have one account, you may not see this step

7 Scroll down the page. On the right, you'll see a graph of your energy use. Click "Download my energy use data"

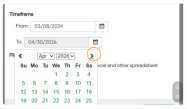
8 Click the calendar image to select the timeframe of the report

9 Select the earliest date available in the "From" field



10 Click the calendar image to select the end date

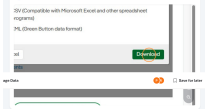
11 Select the most recent date for the "To" field

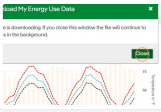


12

12 Select the "CSV" radio button.

14 Click the green "Download" button





16 Your document should begin downloading.
